Tim Peakes' Space Suit

Date: By: **School Blogger**

This week, each class at Lancaster Road had the opportunity to see a real spacesuit worn by Tim Peakes. Several children were given the opportunity to dress in the suit and to show each of our classes. Mr. Gabriel and Mr. Riches told us some interesting facts about the suit and it was brilliant to see it in real-life. The suit was on loan from Morecambe Bay Primary School and has now been returned to NASA! Have a look at the photographs of some of us in the spacesuit.

How74 TUE, 2016-12-06 22:07

A great Marvellous Maths Day at St John's Ripley last week has seen the children intrigued by the possibility of travelling in to space themselves one day. It will though take a long time to get there on foot as part of Mission X!

The authentic Space Suit gave me the title of Coolest Teacher!, just for the day though apparently!

We are planning our Science week now and looking forward to some Star Gazing in the new year!

Many thanks to Yvonne and Phil for all their support!!

At Pottery Primary School, we are having an amazing time training like astronauts. It's hard work but great fun!!

A huge thank you to Phil for inspiring us with the space suit before Christmas. It was a great hook for our space topic.

Our space day on January 9th was fabulous and we couldn't have run it without Yvonne - many thanks for supporting us with all the exciting activities for the day. The flour was a very big hit!!

We are currently walking to the moon and will continue strengthening our muscles and bones and endeavour to eat healthily.

Shobdon Primary in The Hereford Times (14 March 2016)

🕒 24th March 2016 📁 Uncategorised 👤 Sarah Brown

SHOBDON Primary School pupils did not need to leave the classroom to explore outer space when an extra special guest paid them a visit. The children undertook astronaut training while taking part in a "space to earth challenge" and a few youngsters also tried on an authentic "Sokol" space suit.

The educational activities were put on when Tony Forsyth, from the UK Space Agency, dropped by to give a progress update on the International Space Station project involving British astronaut Tim Peake.

He was joined by Mike Jubb, from the Triathlon Trust, who showed the pupils how astronauts such as Mr Peake and his colleagues remain fit while working in outer space. And the Shobdon children imitated the British spaceman's two-hour workout by creating their own "spaceathlon", complete with space, sport and science-based activities.

tir, 03/22/2016 - 09:34 - Anonymous

On 2nd February the children watched the Cosmic Classroom. They were able to observe Tim Peake talking live from the ISS.

On 8th February the Sokol Space Suit came to our school. Some of the children were able to try the space suit on and they also tried to use the gloves to pick up a range of different sized objects.

Sokol Space Suit Visits St Johns

Date: 8th Feb 2016 @ 9:48pm

Today the children at St Johns were extremely lucky as the Sokol Space Suit visited our school. We began the school day with Mr Whittle delivering a whole school worship to introduce the space suit. The suit spent the morning in KS2 and the afternoon in KS1. Some of the children had the opportunity to put the space suit on, others were able to lift it to see how heavy it was and we also had competitions to see who could pick up a variety of different sized objects using the gloves. The children were also able to watch a video to show how to put on and take off the suit and played an interactive game to dress and astronaut. Click on the links below to watch the video and play the game. You should also take time to have a look at the photographs.

Tim Peake: A look at Sokol spacesuit used for re-entry

14 June 2016 Last updated at 19:05 BST

As British astronaut Tim Peake ends his mission, BBC News takes a look at the spacesuit used for launch and re-entry.

The Sokol suit is not as robust as the ones used for spacewalks - but it will keep its wearer alive in emergencies, such as the Soyuz capsule depressurising.

Discovering the Heinlein Educational Spacesuit

BY VIXS – OCTOBER 21, 2015

POSTED IN: NEWS, UNCATEGORIZED, WSW2015

As a main part of the United Kingdom's 2015 World Space Week, Author and Illustrator of Yuri Gagarin – The First Spaceman, Vix Southgate visited schools in the Oxfordshire area along with the SOKOL KV2 Spacesuit, on loan from the Heinlein Education Trust.

This EVA suit came complete with milk bottle oxygen tanks and air hose.

Vix's school visits included; an interactive introduction to the Spacesuit; making a recycled spacesuit; puff Rocket-making, Rosetta made making and an overall trip into the universe.

Throughout the week, Vix's audiences ranged from Year 1 (aged 4–5) to Year 11 (15–16) students. All of whom were enthralled by the interactive nature of the sessions and the opportunity to experience a real spacesuit.

Vix's side kick CASSIE The Cosmic Hedgehog (Cosmic Ambassador for Space Science and Engineering) and her 2 MiniCASSIEs joined in at the Primary schools to inject a bit of humour and science into the sessions with their journeys up to space and talking about the great people they have met.

Vix Southgate said:

The questions were endless! The enthusiasm of all ages when faced with such an amazing experience as being able to touch a real Spacesuit, really captures their imagination. I am so lucky
